

Seghers Family Dental

David T. Seghers, D.D.S., P.A.

5209 Heritage Avenue Suite 420, Colleyville, Texas 76034 Phone 817.283.4444

Seghers Family Dental will be open for all procedures as of Monday, May 4th. We will be contacting all patients who had their appointments cancelled over the last 6 weeks. In order to accommodate the new Texas State Board guidelines, we will be changing our usual protocols. These changes include reducing the number of patients scheduled during a specific time period as well as increase spacing between patients.

Our staff will be utilizing appropriate personal protective equipment (PPE) for your protection, in addition to following all recommendations from the CDC, ADA, and the Texas State Board. We have installed clear barrier shields separating patients from the front desk. Our office will be taking temperature readings of all patients who enter for treatment as well as a thorough questioning to identify possible COVID-19 exposure. We will be providing hand sanitizer throughout the office. We have removed any items in the waiting room that cannot be properly disinfected. We will be increasing the disinfection of the waiting room and high touch surface areas throughout the office. On certain days, we may request that patients wait in their vehicle instead of the waiting room before their appointment. We also request that companions wait in their personal vehicle as well. We also ask that if you are currently ill, have been in contact with others who are ill, or if you've traveled from an area where contact with an infected person may have occurred, that you let us know and we will reschedule your visit. Please feel free to contact our office at 817-283-4444 with any questions, concerns, or to make an appointment.

By following these protocols, we will all be doing our part in this fight to overcome the COVID-19 virus and help return our country to normal as soon as possible. This has been a challenging time and we appreciate your understanding and thank you for your support.
